

Zurich, November 2023

Moving Spine Ltd appoints Elmar Zurbriggen as CEO

Elmar Zurbriggen is a senior executive with over 25 years of health sciences management and leadership experience. He is very well known in the global Spine market and has successfully translated multiple innovations into clinical care. With his track record in international sales and marketing, strategy development and implementation, M&A and integration, product development and innovation, he will be a great asset for Moving Spine Ltd.

Emerging from a promising concept of spinal stabilization with tendon fixations of spinal segments, Moving Spine Ltd. was founded in 2023 with the goal to establish innovative treatment strategies, avoiding spinal fusions and keeping spinal segments moving.

“Elmar will lead Moving Spine as an experienced CEO to bring innovative, natural and non-fusion solutions to the patient in an efficient and safe way. Elmar is exactly the right person for this.” says Prof. Mazda Farshad, Founder of Moving Spine Ltd and Surgeon-in Chief of Balgrist University Hospital and Director of the University Spine Centre Zürich.
